Portland, clear	30.15 54

The Times

ALL ALONG THE LINE.

On Sunday next 20,000 pounds of high explosive will be touched off at the Otam dam in San Diego county. It is expected that this huge blast will dislodge 200,000 tons of rock. That will be one great but brief "boom."

Boy nature is given to sprangling in all directions where it should not, but when it runs in the direction of cowardly brutality, and three big boys attack a little one in showers of "aqueous" stick should be worn out on each of those big boys.

There appears to be a coquettish coyness in the elements just now, as though the spirit of the atmosphere was undecided whether or no to visit the thirsty earth in showers of "aqueous." The said spirit is hereby assured of a cordial welcome in event of a visit to this mundane sphere.

A Santa Monica man has the dried skin of a California rattlesnake that measures 15 feet 6 inches in length and is correspondingly broad. The monster it grew upon was killed some time ago in Garapatos canyon, a few miles from the town. The same collector now has a pair of birds which he believes to be condors, each of which measures ten feet from tip to tip.

The little circumstance of this city asking for everything in sight in the shape of national conventions should not be construed to indicate a greedy or a selfish disposition. A just appreciation of what we are able to offer in the way of inducements is alone responsible for the invitations issued to prospective gatherings of high and low degree to happen in this vicinity. "The more the merrier."

The Fair Association at Santa Ana is nothing if not generous and enterprising. A few days ago it decided to throw the gates of the grounds wide open the first day of the fair, and admit everybody free, and now it has sent a number of men out into the mountains to capture a wildcat or some other wild beast, so that a chase may be given between heats of the horses, with a pack of trained hounds. These Santa Ana fellows are sports.

The proposition of the Executive Committee of the fiesta to admit no business advertising on notices and other printed matter in connection with the carnival is a commendable one. The management will lose some revenue by the exclusion of advertising, but the loss will be more than compensated by the gain in dignity. It is announced to be the intention to have all printed matter issued by the fiesta management tastefully designed and of an attractive character.

The San Francisco Chronicle is congratulating itself and its readers upon having reached a point where the regular Sunday issue will consist of twenty-eight pages. The Examiner goes it four better, and promises a regular Sunday issue of thirty-two pages. But the Chronicle will, as usual, manage to get into twenty-eight pages of real meat and good reading as the Examiner's thirty-two pages will contain. Meantime, for several weeks past the Sunday issue of The Times has consisted of thirty pages.

The news, announced this morning on the best of authority, that the Main-street horse-car line has been sold to a strong syndicate and will soon be changed to an electric road, will be good reading, not only to property-owners along the route traversed by it, but by all who think that such an improvement will be for the good of the whole city. The Main-street line, equipped in an up-to-date manner, will be a good road, and the capitalists who bring about such a change deserve praise for their enterprise.

Pharmacy Board Examinations. H. J. Finger of Santa Barbara and J. W. Wood of Pasadena, members of the California State Board of Pharmacists, began the examination of eighteen applicants for licentiate and assistant pharmacist degrees yesterday morning at the Hollenbeck Hotel. The examinations continued all day and will be concluded at noon today. The full board of seven members will convene in San Francisco on the 9th inst. and conduct examinations of applicants for the different degrees.

Licensed to Wed. Henry Vogel, aged 23, a native of Switzerland, and Lizette King, aged 20, a native of California, both residents of Los Angeles.

OIL FIELD DOINGS.

HARVEY RECEIVES ADDITIONAL INSTRUCTIONS.

Giant Powder Works Closes a Quiet Little Oil Deal—Its Manager Says Los Angeles Oil is Preferable to Cheap Coal.

And doubts that may have existed in the minds of Los Angeles oil producers concerning the intentions of the Standard Oil Company are apparently removed by a telegram which arrived from the San Francisco office of the corporation and was shown by J. C. Harvey to the owners of oil property yesterday.

Mr. Harvey has been charged by nearly every oil combination and owner of private oil property in Los Angeles with "song and dance" tendencies since he informed a Times representative last Sunday evening that the Standard, of which he is the local agent, would launch forth as a buyer and shipper of the crude oil output of Los Angeles. For this reason he telegraphed to the Standard's San Francisco office for further details of the company's intentions and received in reply a telegram, in substance as follows:

"Say to all interested that the Standard Oil Company will positively be in the market soon to buy oil for fuel purposes, and that it will furnish transportation to points where it is to be consumed."

As soon as this telegram arrived Mr. Harvey took a little jaunt through the oil fields and informed all the owners of oil property he met that he, as the Los Angeles end of the huge combine was in earnest and wanted to buy oil as soon as the company's cars could be shipped to this city in sufficient numbers to warrant large purchases. Mr. Harvey added that not over thirty days would be required to complete the company's arrangements, and that, at the earliest opportunity, about fifty cars would be collected here and used to ship the oil to consumers.

Manager Sonntag of the Giant Powder Works of San Francisco, came down and closed a contract with a private oil well owner for 200 barrels of oil, to be delivered at San Francisco for a rate which rumor has placed at \$1.15 a barrel, last Thursday. It was only after Mr. Sonntag was well on his way back to San Francisco that the reason for his quiet visit to Los Angeles gained circulation from reliable sources. Mr. Sonntag is credited with saying that although steam coal, owing to the fact that new mines are constantly being opened in the Northwest, will probably drop to \$3.50 a ton in San Francisco, although the fact that city would use Los Angeles oil if they could be assured that they would be able to purchase it in the open market at a reasonable price, say from \$1 to \$1.25 a barrel.

R. H. Osborne, the oil firm of Chandler & Osborne expresses himself as pleased with the prospect of a chance to get rid of the oil glut in Los Angeles through the agency of the Standard. Said Mr. Osborne:

"All we need to make the oil fields of Los Angeles a success is an outlet for our oil. There is plenty of room for 1000 more wells in the district, which everyone believes has plenty of oil in it. I am not a well owner, but I can see some way for him to sell his oil. The main reason for the operation of so many wells now is that every oil well owner knows that if he does not pump the fellow next to him will get all the oil in his locality. There isn't a cent of money being made, but they are all pumping to prevent their neighbors from pumping up what don't belong to them strictly."

"In my opinion the Los Angeles oil region extends from the Puente oil district clear to the Pacific Ocean. We have not begun to develop this vast hidden treasure."

G. P. Orr, who supplies power to operate twenty-three wells, said yesterday nine of these wells were not running at present because the tanks into which the oil was turned had become full. "It's a bad state of affairs," said Mr. Orr, "of course something must be done to relieve the surplus. Of course quite a number of wells are being operated, but it is merely for self-protection. There is only so much oil in the earth. There are many leased lots actually covered with tanks of oil that can not be disposed of. All the exertions of the Oil Exchange have been in the shape of talk. The matter of helping the oil men out of their difficulty has dragged along for months and not a thing has been accomplished. The oil men want money and they would be quite foolish to pay the actual value of their oil for a tank to put it in if they can receive a fair price for it. We need competition and we need it badly."

The Daggett & Fletcher well on Edgewood road is down about six hundred and fifty feet and the indications are good for oil. Drilling will continue to a depth of 1000 feet.

E. R. Hight and H. A. Webster began boring their Figueroa-street well last evening.

The Davis, Sloan and Biers well on Figueroa street is down about 300 feet and drilling will continue to a depth of 850 feet.

The Carbon Hill Oil Company began pumping from their new well at Figueroa and Court streets yesterday.

The Day and Snyder well on Toluca street is down 300 feet.

The Perkins, Skinner and Tunkling well at West Street and Toluca reached a depth of 960 feet and oil-bearing sand yesterday afternoon.

Embody and Stack are putting up a derrick and having a pump-hole dug at Hobart and West Street, preparatory to drilling a new well. They will drill another well on the same lot within a short time.

The Rex Oil Company has abandoned their oil well site on Rockwood, near Belmont avenue, without having done any drilling, and moved the derrick to their new well site on Charles Matthey's lot across the street yesterday afternoon.

Had a Bad Dollar. The case of B. D. Money, the young man charged with having counterfeit money in his possession, was on trial in the United States District Court yesterday. The defense presented was to the effect that the defendant received the counterfeit silver dollar found on him with four other good dollars in exchange for a \$5 gold piece. The counterfeit dollar in question was the one which he was charged with having unlawfully in possession. He testified that when he received the change he did not look at it before putting it in his pocket and did not discover until afterward the money was bad. The taking of the testimony was concluded yesterday afternoon and the case was then continued until this morning.

(Santa Fe Ticket Office.)

IN SOCIAL SPHERES.

Mrs. Winifred Hunt gave a charming dinner Wednesday in honor of Mr. and Mrs. Reynolds. The table was prettily decorated with white cosmos and maidenhair ferns. Those present were: Mr. and Mrs. Reynolds, Rev. and Mrs. Burt Estes Howard, Dr. and Mrs. Cochran, Mr. and Mrs. Hubbard and J. M. Whitmer.

Mrs. Hunt gave another delightful dinner yesterday at which Mr. and Mrs. Percy Schumacher, Mr. and Mrs. Patrick, Dr. Carl Kurie, Messrs. Frank and John Schumacher were the guests. The table was artistically decorated with pink carnations and maidenhair ferns.

A SENSE PARTY. Miss Madeline Boles gave a delightful "sense party" last evening, at her home on West Twenty-third street, in honor of Miss Libby, who has recently returned from Europe. The five senses were tested, and pretty prizes were awarded for the largest number of articles correctly guessed. The ladies first prize was a dainty yellow and white embroidered pin-cushion; the booby, a purse containing five new pens. The gentlemen's first prize, a pretty tobacco pouch, and the booby, a leather medal. The tallies were heart-shaped cards of pale pink and green rough paper, tied with ribbons. Miss Boles was charming in a gown of white, violet-striped gauze over white satin, the bodice being of violet silk, trimmed with handsome lace. Miss Libby wore a dainty gown of white silk. The rooms were prettily decorated; roses, cosmos and potted palms and ferns were used in the drawing room, and heliotrope and white cosmos in the library. The dining-room was all in pink, and a large bowl of pink cosmos and maidenhair fern occupied the center of the table. The guests were the Misses Roberts, Daft, Pettit, Genevieve Smith, Frances, Libby, Messrs. Will Teale, Will Nicholson, George Wright, Kimble, Daft, Robert Kimble and Briggs.

A GOVERNOR'S ERROR. Florida's Chief Executive's Wrong Idea of California Oranges. From Atlanta, Ga., comes a story of how the Governor of Florida had a mistaken idea in reference to California oranges. Since the opening of the exposition one day was celebrated as "Governors' day."

Chief executives of a number of States were present at the exercises, and later the distinguished guests were shown some of the most attractive displays. Such a tour of visitation naturally led to the Southern California exhibit, and the tower of oranges reproduced from the one shown at the citrus fair in this city last winter was viewed with admiration. The electric display on it heightening the effect. In reply to these remarks by the Governor of Florida, Charles L. Wilson, who is acting as assistant to Frank Wiggins in attending to the exhibit, took one of the oranges from the tower and cut it.

The orange was one of the late Valencia, and fairly spurted with juice. A number of other oranges were cut with the same result. The mistake in the statement which Florida's Governor had made was so apparent as to produce a laugh at his expense.

New Sewer Needed. The need of a new sewer on North Los Angeles street has been demonstrated by recent excavations made for private connections to the old sewer which is now in use. The old sewer starts from near Main and Arcadia streets, runs along Arcadia street to Los Angeles street, thence along the south side of that street to some point south of First street. This old sewer, although large in diameter, is in a foul condition and is scarcely low enough for present demands for drainage.

MOUNT LOWE RAILWAY. The Alpine division of the Mt. Lowe Railway is now open from Echo Mountain to Mt. Lowe Springs, among the fragrant and shady pines, covering the grandest of all mountain, canyon and valley scenery. This section is a mile longer than the entire Mt. Washington Railway, with fares at only one-third the cost. Weekly or monthly guests at Echo Mountain House will receive a rebate of all Mt. Lowe Railway fares. Rates as low as any other like accommodations. See Mt. Lowe Railway time-table this paper.

J. T. SHEWARD, 113-115 North Spring Street.

We will show today a line of pure mohairs in small neat figures, for 50c a yard. They are 38 inches wide and easily worth 75c. We will show a portion of this stock in our windows today. It is the best dress goods bargain of the year; all new. On sale today for the first time; they are all blacks.

We will show today a line of 46 inch all-wool serges for 50c a yard. A double close woven twill, we will compare with any 75c all-wool serge in this city. We have this line in blacks and colors.

We will show today a line of fancy black mohairs in small neat designs, and will sell a limited quantity for 50c a yard. They are worth seeing.

In this connection we want to say that our dress-goods stock is in the best condition as regards prices, as regards quantity, as regards style. We are showing more new dress goods. We are showing better values. We have less old goods than any house in the entire city. We are showing more new goods for 25c, for 35c, for 50c. There is not a single piece carried over from last season. For 60c, 75c and \$1 a yard our dress goods stock is way ahead of anything we have ever shown. These are the popular prices. This is where three-fourths of the sales are made. We have great values at these prices.

Today, new Mohair Crepons, \$1.25, \$1.50 and \$2 a yard. They are extra heavy; and are just the thing for capes and for separate skirts. Have you investigated the Cloak Department this season? Box coats, capes, plush, fur and cloth, real plush and fur capes, from \$7.50 and up. Goods we can recommend.

HOUSE AND LOT.

INFLATED PRICES ARE RETARDING BUSINESS.

The Proposed Boulevard Which Is to Run from Westlake Park to Elysian Park.

Why Work on the First Street Cut Has Been Carried on so Very Slowly.

Settlers Coming from the East—Immense Land Holdings of Miller and Lux—Subdividing the Big Ranches—Building Notes.

The volume of business transacted during the past week has not been so large as usual. This is not owing to lack of would-be buyers so much as to another cause, the mention of which would have been considered absurd a year ago, namely, the difficulty of obtaining desirable property at a reasonable figure.

MARKING UP PRICES.
It is a fact that a great many lots in Los Angeles have advanced 100 per cent. in price during the past twelve months, and there is a tendency on the part of many holders to still further advance values without waiting for the demand to catch up with them. This is why real estate dealers complain that they are unable to make as many sales as the active demand for good property would warrant.

The Times has said about all on this subject that it is necessary to say. It can only be repeated that when a property-owner is not satisfied to accept a fair market price for his land and the proper and businesslike way to do so is to take it off the market, not to offer it at a certain price and then raise that price as soon as he gets an offer. Such a course tends to disgust would-be purchasers more effectively than almost any other that could be suggested. It also has two other results, neither of which are advantageous to the real estate owner. In the first place, it tends to cause investors to look with suspicion on Los Angeles property altogether, and then it diverts the attention of buyers to other sections of the city, where holders really want to sell at a fair price.

THERE ARE OTHERS.
Apropos of this, it should be remembered by these property-owners who are discounting the future that there is still a considerable area of desirable residence property within three miles of the Courthouse that has scarcely yet been developed. Now, if prices are run up too high in one direction it will pay investors or speculators to go in to acquire tracts in some of these sections that have not yet become popular, make improvements in the shape of grading and planting, and then secure improved transportation facilities and sell the lots at a profit for half the price that they would have to pay for unimproved property in some of the more fashionable parts of the city.

In short, when prices are unduly inflated in one section, the resource is bound to be a temporary setback to that section and the more rapid building up of some other part of the city.

SOUTH LOS ANGELES.

Whether business is dull or lively in real estate the southern part of the city continues to build up with remarkable steadiness. Contracts have just been let for a ten-room school building on the Adams street tract, at the corner of Twenty-ninth and San Pedro, to cost \$20,000. The plans show one of the handsomest school buildings in the city. Contracts have also been let for several more handsome residences on this tract.

A PARK BOULEVARD.

The proposition to construct a boulevard from Westlake to Elysian Park looks as if it might be accomplished. G. A. Fudickar, who made a proposition to the City Council, informs The Times that he has obtained the necessary signatures of the property-owners along the line of road. Mr. Fudickar has a frontage of 2400 feet along the proposed boulevard, and he stands ready at any time to give up his property, and in addition bear one-half the expense of grading. He suggested to the board that the lines of the boulevard be from Elysian Park to the west side of Echo Park, thence to Alvarado, thence on Alvarado to Westlake. Alvarado street is now eighty-two feet wide, but it is not opened all the way through to Temple street.

Some years ago it was proposed to make a boulevard of Alvarado street, clear through to the Los Feliz road, and thence along the river around to Los Angeles. The proposition was originated by property-owners in the northern part of the city who are no longer interested in that section, and was afterward dropped.

The boulevard now proposed by Mr. Fudickar would be a picturesque one. After passing the north side of Echo Park it would reach a high ridge of land which bounds the western side of Elysian Park, and continue along this ridge until it makes connection with the Los Feliz road.

There has been much talk from time to time about such a boulevard, and it appears that at length there is some chance of its being built. The Council will doubtless act on it in its next session, and the matter through, and thus not only provide a much-needed drive through a picturesque part of the city, but also open up a good road for large tracts in the northwestern section which have been hitherto much neglected, because they are comparatively inaccessible. After this terra incognita is once opened up by a road, many Los Angeles people who have resided here for a number of years will be surprised at the extent of attractive country which lies "out of doors" within three miles of the Courthouse.

SETTLERS COMING.

Letters continue to be received in this city almost daily showing that the immigration to Los Angeles during the coming winter will be very heavy. The following is an extract from a letter sent by A. C. Hancock, a well-known Los Angeles real estate dealer, to the editor of the House and Lot department, from Earlville, where Mr. Hancock is visiting the friends of his childhood:

"It is an old and true saying that one must occasionally leave Los Angeles for a month or so in order to more fully appreciate what the God of Nature has done for our sun-kissed city, Los Angeles. Last evening at 7 o'clock the thermometer stood 90 deg. above and at 4 a.m. today 46 deg. above, only a change of 44 deg. In twelve hours, and yet people wonder why it is that so many people are going to Southern California to locate. Like all lovers of Southern California, your humble servant is doing some good talking for our sun-kissed land. At least for persons, and perhaps more, will go from this place within the next sixty days to cast their lot among us. The daily Los Angeles Times comes to me each day, and I would feel lost without it."

STREET ASSESSMENTS.

The assessment, warrant and diagram of the sewer on Maple avenue between Washington and Jefferson streets was recorded and issued September 30 to John E. White, rooms 3 and 4, Fulton Block, New High Street, to whom the contract was assigned by the contractor, C. W. Floyd.

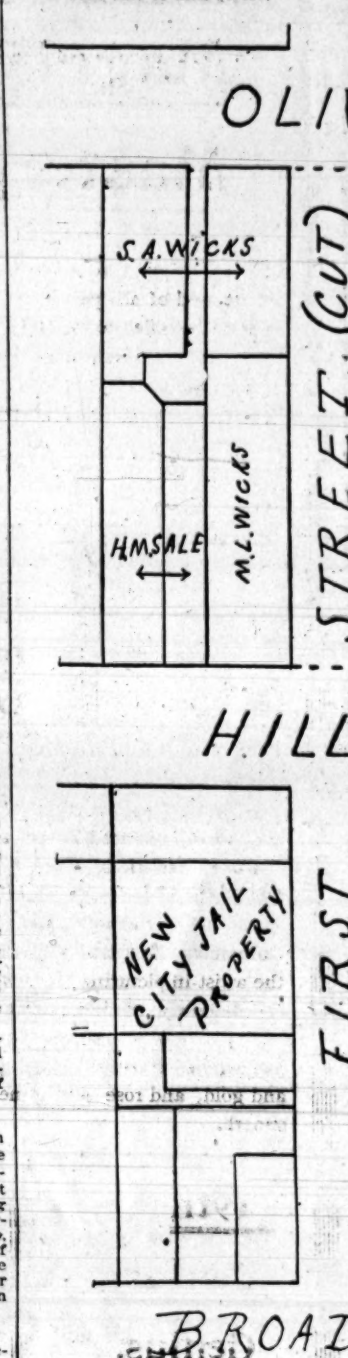

This assessment will be delinquent

October 30, and all unpaid assessments will draw 10 per cent. interest per annum. The assessment for improving Beaudry avenue from Alpine to Highland will be issued this week to R. A. Meyers, to whom it was assigned, and to whom payments should be made.

Proceedings have been started to open, widen and extend the following streets, viz: Second street from Alameda to west line Bigelow tract; Bloom street from Main to Alhambra; Los Angeles street from Second to Third; Main street from Fifth to Ninth; Eighteenth street from Hope to Grand avenue; San Pedro street from Second to Fifth; Well from Idell to San Fernando road; Ninth street from Pearl to west city boundary.

THE FIRST-STREET CUT.

The following diagram shows First street, from the west line of Broadway to the east line of Hill street:

It will soon be two years since a commenced work on the work of cutting through the big hill on First street, which has so long stood as an impassable barrier on the principal east-and-west street of the city, within a little more than a stone's throw of the business center. As long as the hill stood there it looked so big and impressive that many people doubted whether it could ever be opened. Now that the work is approaching completion it is seen that the mountain, although bigger than a mouse, was not such a very great obstacle after all. Since the cut has been made to its present depth, people begin to realize what a short distance it is from the business center to the section lying between Olive and Pearl streets, and to wonder that the improvement was not commenced long ago.

While it is true that the cut has been made to a considerable depth, it is not yet open for travel, and at the present rate of progress, judging by the past, it will be quite a long time before "citizens on foot and in carriages" can avoid the necessity of making a detour by way of Court or Second street. Inquiries are constantly heard from the public as to the reason for the long delay in finishing this most necessary improvement. Undoubtedly the work has gone forward at a snail's pace, but there have been many difficulties to contend with. The chief of these difficulties has been the occupancy of the north side of the hill by Mrs. Shepard, a lady of very positive ideas and much misdirected energy, who has persistently opposed the opening of First street through the hill in any shape. Over two years ago when first a definite attempt was made to start work on the improvement, Mrs. Shepard obtained an injunction from the courts, in getting the judge to permit the south side of the street to be opened, provided the north half, on the side of Mrs. Shepard's property, was terraced under the supervision of the City Engineer. Work was started on December 18, 1893, by the chain-gang, to which was shortly added a band of Coxeyites, who worked there for a time and got rid of a large amount of dirt—(removing it from the cut, of course). From the beginning great difficulty has been experienced in keeping the chain-gang regularly at work on this spot, as the Councilmen all have improvements of their own in their minds, and this much they have attended to, and several times the men have been taken off for a short period. However, with the exception of eight weeks the chain-gang has worked with reasonable regularity, if somewhat slow, until August 7, when they were put to work upon Olive street, because of the dangerous and unsafe condition of the south bank of the street. During this time numerous slides have occurred from the north side of the property of Mrs. Shepard, and although she has used the city for \$50,000 damages on account of these excavations and slides, the benefit she would derive if it should all cave would be much more than what damages she will be liable to get from the city. There have been an average of about twenty men in the chain-gang.

One objectionable feature to the north side is the innocent little hydrant on top of the bank, which has leaked almost constantly, thereby keeping the soil moist and slippery and facilitating the occasional dangerous caves. Of course, no one thinks of stopping the

leak, for if it should be stopped the earth would not cave near so much, and it then would have to be removed by private means instead of having the chain-gang to do it.

On the south side of the street the excavations were made a little too far in at the foot of the bank, consequently the Street Superintendent on August 7 ordered the chain-gang out on Olive street, as this bank was becoming more dangerous from slides all the time, and directed the attention of the Council to the matter by communication dated August 5, recommending that arrangements be made with the property-owners on the south side to slope the bank.

No formal arrangements were made with the owner of the property on the south side, M. L. Wicks, but his attention was drawn to the fact that the city is of the falling of a large quantity of threatening earth on his property.

On all this land there is nothing done, no improvements, except such as will aid in maintaining stock and guarding it against drought, with the exception of the few small experimental orchards that have been planted here and there. It is no wonder that the counties in which these large estates and ranches are located are not progressing, but have to appear every year before the Board of Equalization and plead poverty.

DIVIDING THE RANCHES.

A similar state of affairs, on a smaller scale, prevails in the northern part of the state, where great wheat ranches are the rule. It is now proposed to make a determined effort to subdivide these lands on a comprehensive scale. It is proposed to consolidate, as preliminary to cutting up into small tracts, the Bidwell ranch at Chico, of 80,000 acres; the Reavis tract, in Butte county, of about 60,000 acres; the Glenn ranch, in Glenn county, of about 50,000 acres; and the Cone ranch, in Tehama county, of about 100,000 acres. The plan is, to a great extent, the device of J. L. Wells, who is in charge of the project, and to whose judgment the matter of consolidation and subsequent subdivision has been committed.

Here are five tracts of land, aggregating 430,000 acres, not adjacent or coterminous, but lying in what may be properly described as the same section of the state, which it is proposed to bring under a common management for the purpose of inducing colonization and settlement in small holdings.

These five tracts are divided among 2000 farmers, giving each an average of twenty-one acres, the population of the State would be increased by 100,000 people. Southern California has comparatively few large estates of this character not yet subdivided. There are, however, still some which might be placed on the market with profit both to the owners and to the section at large. Among those which impede the march of progress around Los Angeles city are the Buena Vista, Rancho de Las Aguas and San Vicente, between Los Angeles and Santa Monica, and the Laguna ranch, east of the city. In Santa Barbara there are a number of large ranches, several in Ventura and San Diego counties, and notably one great ranch of 100,000 acres, belonging to the Irvine estate, in Orange county. The time has now arrived when these tracts of land might be subdivided and placed on the market at a profit. There is plenty of money in the country for a company, which undertakes the work with ample capital, and sets about it in a practical and comprehensive manner, not looking for its profit within twelve months, but gradually extending over a period of ten years or more.

BUENA VISTA STREET.

The quiet shade of Buena Vista street have been ruthlessly disturbed lately by piles of lumber and brick strewn along between Alpine and Ord streets. All this material is for the new medical college building. This building will be a great improvement, 35 feet front by 60 feet deep. On the first floor is a large amphitheater, where the students will listen to lectures. There is also on this floor a pharmacy and several rooms for the treatment of the sick. The next two floors are for the chemical, bacteriological, physiological, anatomical and pathological laboratories and study-rooms for the students. The chief movers in the erection of this are the faculty of the medical college so lately organized in Orange county. The time has now arrived when these tracts of land might be subdivided and placed on the market at a profit. There is plenty of money in the country for a company, which undertakes the work with ample capital, and sets about it in a practical and comprehensive manner, not looking for its profit within twelve months, but gradually extending over a period of ten years or more.

BUILDING.

The building permits issued by the Superintendent of Buildings for the month of September, after deducting alterations, removals, staples, etc., amounted to 153, valued at \$228,373. This is at the rate of six buildings for each working day, which, although not quite a high-water mark, is certainly an excellent record, and one which it is doubtful whether any other city of the same size in the country could duplicate.

The Builder and Contractor notes the following uncontracted new work: Plans are being drawn for Samuel McCallum for a three-story brick building to be erected on the east side of Broadway south of Fifth street; cost \$20,000. Plans are being prepared for S. H. Seymour of San Francisco for a four-story brick block to be erected on Second street just west of the California hotel. He will have two stores on the first floor and forty rooms above; cost \$40,000.

C. W. R. Ford of the Boston dry goods store is having plans drawn for a four-story frame lodging-house to be built on the east side of Hill street between Second and Third streets; cost \$50,000. S. A. W. Carter is about to erect an eight-room stone and frame residence in East Los Angeles; cost about \$3000. Plans are being prepared for a two-story sixteen-room double house, to be built on Eighth street west of Pearl street; cost \$3500.

Plans are being drawn for an engineering school to be built at the County Hospital. It will be of brick and cost \$4000.

Plans are being prepared for six five-room cottages to be built in the southwest section of the city; cost about \$4800. H. Newmark is about to erect a business block on the east side of Main street, between Second and Third streets.

BUILDING PERMITS.

The following permits of \$2000 and over were given by the City Superintendent of Buildings:

J. T. Griffith, two-story dwelling.

Beecham's pills are for biliousness, bilious headache, dyspepsia, heartburn, torpid liver, dizziness, sick headache, bad taste in the mouth, coated tongue, loss of appetite, sallow skin, etc., when caused by constipation; and constipation is the most frequent cause of all of them.

surprising that the German heirs of Charles Lux were surprised when they received information that their relative had a half interest in land almost equal in area to Bavaria, and four times the area of Saxony. The land owned by this firm is greater in area than any of the seven original States in the Union. It is equal in area to the States of New Hampshire, Massachusetts, Rhode Island and Connecticut together. It is half the size of New Virginia and an eighth the entire area of California. It is as large as Greece, with the Ionian Isles. It is four times the area of Alsace-Lorraine. It is but little smaller than Ireland, and half again as large as Belgium, and one-third the size of England and Wales together.

On all this land there is nothing done, no improvements, except such as will aid in maintaining stock and guarding it against drought, with the exception of the few small experimental orchards that have been planted here and there. It is no wonder that the counties in which these large estates and ranches are located are not progressing, but have to appear every year before the Board of Equalization and plead poverty.

LOST HIS EYE.

Dr. J. H. Bryant suffered a Most Painful Accident.

Dr. J. H. Bryant, ex-City Councilman and father of Police Surgeon Bryant, was on the streets yesterday for the first time since having a delicate and painful surgical operation performed.

While at Yakima Bay, Or., about two months ago, developing some valuable coal deposits in which he is interested, he was struck in the right eye by a small twig that was bent and flew back. The blow burst a blood vessel back of the eyeball, and the injury was so severe that the doctor was compelled to return to Los Angeles and employ the most skillful oculist in an endeavor to save the eye. This was unsuccessful, and about two weeks ago the oculist had to remove the right eye in order to save the left, which was impaired through sympathy. The patient was kept in a dark room for twenty days, and was able to exercise out doors yesterday for the first time since he returned from Oregon.

THE PUBLIC SERVICE.

LOWEST BID WAS ACCEPTED BY THE COUNCIL.

The New Schoolhouse to be built by the City Engineer, under the supervision of the City Engineer, was accepted by the Council.

Robert Bayley on Trial for Embezzlement—Complaint for Perjury Against Larrabee.

Mace Mayes Arraigned for Grand Larceny—Three Brutal Boys—A Father's Effort to Save His Son's Reason.

The City Council yesterday accepted the bid of Mackey & Young for the construction of the new school building, and directed the City Engineer to draft the contract for the work. The City Engineer held his regular meeting yesterday, and prepared its report upon matters referred to the committee by the Council.

AT THE CITY HALL.

CITY COUNCIL.

The Lowest Bid for School Buildings Accepted Yesterday.

The City Council met in special session yesterday to receive the report of the joint committee of Councilmen and members of the Board of Education, which was referred the bids received for the construction of the new school buildings. This joint committee met yesterday morning and prepared the following report, which was presented to the Council in the afternoon:

"Your Special Committee on School Buildings, to which was referred bids for the erection of school buildings as shown by plans Nos. 6 to 13, both inclusive, beg leave to report recommending that the bid of Mackey & Young, to complete all of said buildings on or before January 15, 1896, for the sum of \$180,000, be accepted and the City Engineer instructed to prepare and present the necessary contract and bond."

This report was adopted by the Council. The contract and bond will be approved by the Council at its next meeting.

On motion of Councilman Kingery, the City Water Company was instructed to place a fire hydrant at the corner of Third street and Burlington avenue. On motion of Councilman Fessell, the property owners on Maple avenue between Washington and Jefferson streets were granted permission to connect with the sewer on said street before the same is accepted by the Street Superintendent.

A petition of William Niles, to construct a redwood curb on the east side of Maple avenue from the Niles tract to Twelfth street, was referred to the Board of Public Works. The Council then adjourned to meet on Tuesday of next week, Monday being a legal holiday.

SEWER COMMITTEE.

Recommendations Were Prepared Yesterday by the Committee.

The Sewer Committee met yesterday and prepared the following report for presentation to the Council at the next meeting of that body:

"In the matter of the report of the Health Officer calling attention to the sanitary necessity of constructing a sewer on Fifth street, between Grand avenue and Hope street, thence on Hope street to Fourth street; also on Third street, between Grand avenue and Figueroa streets, recommend that the City Engineer be instructed to prepare and present the necessary ordinance of intention."

"In the matter of petition from the Los Angeles Orphan Asylum, asking that a sewer be constructed on Boyle avenue, between Seventh street and Workman and Hollenbeck Park, recommend the matter be referred to the City Engineer and, if practicable, then to present the necessary ordinance of intention."

"Recommend that petition from P. H. Lemmer, asking permission to put in a twenty-foot sewer by private contract on Sixteenth street, be filed."

"In the matter of protest from E. Rudolph et al., protesting against the assessment for sewerage of Chestnut and other streets, recommend that the same be set for hearing Monday, October 14, 1895, at 9 o'clock a.m."

BUILDING PERMITS.

Permits for building purposes were issued yesterday as follows:

A. P. Johnson, a store building on First street and Hill street, to cost \$10,000.

O. T. Johnson, to move dwelling from Ninth and Los Angeles streets, \$900.

W. B. Stewart, a three-story brick building on Seventh and Broadway, to cost \$18,000.

P. C. Kernald, a dwelling on Ella street, between Herriott and Prospect streets, to cost \$2,000.

G. W. Tolhurst, a dwelling on Adams street, near Main street, to cost \$920.

CITY HALL NOTES.

City Engineer Compton has not been able to resume work in his office since he returned from the East. He is now confined to his home with an attack of acute inflammation of the bowels.

Street Superintendent Howard has filed notices with the City Clerk, giving information that the time for the Union Paving Company and F. P. McKean to sign contracts for the performance of work awarded them by the Council has expired, and the contracts have not been signed. It is understood that the improvement of Vernon street, the contract for which was awarded to F. P. McKean, is not being proceeded with, although the contract was signed several weeks ago.

The special committee, which was instructed by the Council to prepare an ordinance abolishing the offices of City Assessor and City Tax Collector, has made some headway in its work. In consultation with the City Attorney, has collected considerable data upon the subject. A report in the matter will not, however, be prepared for several weeks.

Councilman Snyder is mourning the loss of coin to the amount of \$30. He received a note the other evening, by a messenger, containing a check for \$30, indorsed by Councilman Munson, with the request that he (Councilman Snyder) cash the check and send the money by the messenger boy. The Councilman complied with the request, and signed the next day that he had been imposed on by a clever swindler, who had forged the signature of Councilman Munson to the note. The messenger from whom he received the note, to the police, who will investigate the matter.

AT THE COURTHOUSE.

THE COURTS.

Robert J. Bayley on Trial for Embezzlement.

The charge of embezzlement preferred by John Tate, an old soldier, against Robert J. Bayley, a brother veteran, and keeper of a hotel at San Gabriel, was on trial yesterday before Justice Young.

It was shown in the evidence that the money entrusted by Tate to Bayley amounted to \$1900, the entire amount of the pension received by Tate. When the money for back pension was first received, Tate promptly spent about \$400 of it in presents for Bayley and his family, such considerable gifts as a horse and buggy, and a bicycle for Bayley's nephew being the sort he elected to give.

In the account submitted to the court by Bayley he states that he paid out of the trust money, \$1064 to Tate, in sums varying from 10 cents to \$50 per day. For boarding and lodging Tate, he charges \$200. He alleges that the entire amount received originally from Tate was \$1580, and that the balance now due him is \$1216.

Tate, on the contrary, asserts that he has not received more than \$50, all told, of the money he entrusted to Bayley. He states that he was almost constantly intoxicated and was incapable of managing his own affairs.

Since the charge made against him, Bayley has turned over all his property to his sister, so that nothing can now be touched for the debt. The motion of the defendant to dismiss the action was denied, and the case will be continued next Friday.

HIS REASON ENDANGERED.

A Father's Effort to See His Inebriate Son.

Nearly a month ago Fred R. Haskin, the son of Henry P. Haskin of Hollywood, was sent to Highland to be cured of dipsomania. Yesterday, the father of the young man went to the District Attorney in the greatest distress, declaring that he had been forbidden to see his son, and feared the permanent effects of the young man's removal from the effects of the confinement among lunatics, and seclusion from his friends.

Two weeks ago, Mr. Haskin went to the asylum to see his son. The interview was permitted and took place in the presence of Dr. Campbell. In the course of the talk the young man begged his father to take some steps to have his condition bettered, as he felt that his reason would be destroyed if he were compelled to remain in the midst of lunatics who were apt at any moment to be violent, and who were at all times utterly insane.

The unfortunate young man is a victim to alcoholism, having tried the cure in vain, and, although entirely sane when away from liquor, his nervous system is so shattered that his surroundings have a terrible effect on him.

The physician showed signs of displeasure at the patient's request, and when Mr. Haskin went again to see his son, he was peremptorily refused the interview. He has written to his son repeatedly, but has learned that the letters and telegrams he has sent have never reached their destination.

Last Monday Mr. Haskin learned that his son had been put into the "wild war" among the violent insane patients, and that his condition was truly pitiable. The father wrote again to the authorities, offering anything to have his son separated from such surroundings, but was again refused permission to see the young man, or to communicate with him in any way.

Yesterday Mr. Haskin had a short interview with Dr. Campbell at the Santa Fe station, and again urged his request to be allowed to see his son, or, at least, to be assured that the young man's condition would be bettered, but the request was not granted.

Mr. Haskin told the story substantially as above given, and has applied to the District Attorney for some means of redress, and has also written the Governor about the case, as he is determined to see his son, and to have him given proper treatment, if possible.

THREE LITTLE TONGUES.

The District Attorney yesterday issued a complaint against three juvenile delinquents, upon the charge of assault. Reuben Eubanks, a little fellow only six years old, living at Pico Heights, was set upon by Dan Randall, and two other boys known respectively as "Jim" and "Tom," who had been brutally beaten and abused, being thrown down and struck, and a dog set upon him. The assaultants were all about twelve or thirteen years old, and the case which the inhuman "couseness" of boy nature most crops out, and they will probably be sadder and wiser youngsters when the law finishes with them.

DAVIS ACQUITTED OF PERJURY.

J. W. Davis, tried before Judge Smith on the charge of perjury, was acquitted yesterday. The judge, in instructing the jury to bring in a verdict of not guilty. The evidence as to whether McNulty was or was not present at the Sallors' Union riots, was about evenly balanced.

Davis now wants to retort the charge of perjury upon McNulty, but it is unlikely the District Attorney will issue a complaint.

A CONTESTED WILL.

Judge Clark and a jury yesterday heard the first portion of the evidence offered in a will contest. The quarrel is among the brothers of Elizabeth H. Douglas, deceased, the property left by her being valued at \$3000. Horace M. Stevens, one of the brothers, was appointed executor, and the others claim that the disputed will was made under undue influence exerted upon the deceased. The case was continued until today.

MACE MAYES ARRAIGNED.

Mace A. Mayes, the Antelope Valley cattle-thief, was arraigned yesterday in Department One of the Superior Court, and pleaded not guilty to the charge of grand larceny. He will be tried on October 25.

COMPLAINT AGAINST LARRABEE.

Dist. Atty. Bell yesterday issued a complaint against W. D. Larrabee, the superintendent of the electric railway, charging him with perjury. The complaint was issued at the instance and upon affidavits of J. H. Levering and the eight or ten others who were included with Levering in the charge of rail-stealing. Mr. Larrabee was arraigned before Justice Young, and gave a bond of \$1000 to appear.

NEW INFORMATION.

Upon motion of the District Attorney an information was yesterday filed in Department One, charging Lewis Knell with the murder of a woman, and two boys, valued at \$85, the property of W. R. Sargeant.

An information was also filed against Dick Wood, accused of the crime of mayhem, committed in the great highway of George Hopkins' lower jaw.

NEW SUITS.

Katie Strong has applied for a divorce from D. C. Strong, on the ground of desertion after two weeks of wedded bliss.

Lizzie Smith has filed an application for divorce from George Smith, on the ground of extreme cruelty.

June A. Whittlesey has begun suit against Nelson Whittlesey to recover \$700 on a promissory note.

Mr. and Mrs. John H. Hickmann have petitioned for leave to adopt a baby girl named Ruth Johanna Esther Dyer. The mother of the child consents to the adoption, and the child will bear the name of Hickmann.

M. Noon has begun suit against H. Prahl et al., to have a lien amounting to \$200 adjudged against a lot of land in Santa Monica, and to have the said lot sold to satisfy the claim.

Edward Thomas has begun suit against Samuel Mansfield, Olin Dolson, E. A. Bellinger, the Harper-Reynolds Company et al., to foreclose a mechanic's lien.

COURT NOTES.

Judge McKinley yesterday granted Mary A. Jordan a decree of divorce from James H. Jordan on the ground of desertion and non-support.

The case of Morgan vs. Preston still drags slowly on in Judge Shaw's court. Mr. Morgan has been on the stand for the major part of two days now, stating at length the reason for his wishing Preston's trust terminated, and the property restored to his own keeping.

In the case of Fyke vs. the Los Angeles Electric Railway Company, now on trial before Judge Van Dyke, the defendant is now presenting its case. The motion of the defendant for a non-suit was argued at length, submitted, and taken under advisement.

W. A. Bell was arraigned before Judge Smith on the charge of burglary. Judge York yesterday ordered commitment for the defendant in the case of Fout vs. Little. The suit was brought for damages against Little for selling a kicking horse and quiet disposition, but it was decided that the horse did not kick hard enough to warrant damages.

Brulio Laventhal was arraigned yesterday in Department One on the charge of grand larceny. October 5 was the time appointed for him to plead.

Judge York yesterday ordered Allen C. Ramey to be committed to the California Home for the Feeble-minded at Eldridge, in Sonoma county.

An appeal has been taken to the Supreme Court in the case of Field vs. P. A. Howard, the suit concerning the paving on Main street. The bond was set at \$1000.

Richard Woodward was arraigned yesterday in Department One on the charge of assault with a deadly weapon. The motion to discharge the information on the ground that it was not filed within the prescribed thirty days, was continued to October 5.

IT IS DEFEATED.

THE EFFORT MADE TO CREATE A GREATER LOS ANGELES.

By a narrow majority the Anti-Annexationists won the fight—a slight vote in the election—The Vote in Detail.

There will not be "a greater Los Angeles" for some time to come. The proposition to annex the suburbs of Vernon, Rosedale, Pico Heights and University was defeated in the election held yesterday, by the narrow majority of eighteen votes. The vote in the city gave a very large majority for annexation, but the suburbs of Rosedale and University, with a combined majority of 108 against annexation, turned the scale against the scheme to annex, with the result as before stated.

Comparatively little interest was taken in the election throughout the city, and the vote polled was a very light one. It was generally conceded that the city would give a majority in favor of annexation, and this expectation was borne out by the result. But little over the day-votes were cast, 839 of these being for, and 240 against annexation. There was not the slightest excitement of any sort, in connection with the election, and on each side strained every nerve and exerted every effort to win. The close majority of eighteen votes shows the interest that was exhibited in the contest. The returns from the various wards in the city came into the City Clerk's office a few minutes after 7 o'clock, while those from the outside precincts did not arrive until after 9 o'clock. The votes cast in each ward and precinct may be seen from the table below:

THE VOTE IN DETAIL.

No. of ward. For. Against.

First 75 30
Second 112 26
Third 154 26
Fourth 136 15
Fifth 71 29
Sixth 68 34
Seventh 88 33
Eighth 48 37
Ninth 77 10

Total of city vote 839 240

THE SUBURBAN VOTE.

Precinct. For. Against.

Rosedale 101 148
University 154 215
Pico Heights 81 43
Vernon 140 48

Total suburban vote 476 494

As a majority in both city and suburban was required to carry the annexation proposition, it will be seen that the failure to secure such a majority in the suburbs defeats the effort made to annex these places to the city.

THREE INQUESTS.

Death Resulted from Natural Causes in Each Case.

The Coroner held three inquests yesterday. The verdict in each case was death from natural causes.

The inquest over the body of F. K. Korman was held at Kregolo & Breese's. Korman had been a trained near actor, while en route from San Francisco to Los Angeles for the benefit of his health. He had consumption and death resulted from hemorrhage of the lungs. Korman had a family in San Francisco. Papers in his pocket indicated that he was well off financially. His body was shipped to San Francisco yesterday afternoon.

J. Kirk, the old Englishman who was found dead in bed at the Hoffman House, died of fatty degeneration of the heart. The inquest was held at Sharp & Samson's.

Mrs. Machado of Ivy, who died without having had the immediate care of a physician, had acute cancer, which caused her death.

LA FIESTA DETAILS.

THE GREAT SHOW WILL OPEN IN APRIL NEXT.

An Elaborate System of Collecting Subscriptions Adopted—All the Citizens of Los Angeles Expected to Pay According to Ability.

The Committee of Thirty of La Fiesta of 1896 held a meeting in the board of directors' room of the Chamber of Commerce yesterday afternoon, at which there were present: D. Freeman, C. D. Willard, E. F. C. Klokke, J. F. Francis, F. K. Rube, A. C. Billocke, F. L. Allen, J. V. Byrne, Adolph Petech, A. Jacoby, J. V. Wachtel, H. P. Anderson, J. S. Salkey, R. W. Pridham, A. H. Faxon, Gregory Perkins, Jr., J. M. Crawley, H. Jernie and H. J. Woolcott. D. Freeman presided.

The chairman opened the meeting with a speech of cheerful encouragement, in which he said that the interest being shown by the public even at this early date, indicated that the most certain success, and predicted that the fiesta would go down in the history of Los Angeles as one of its chief glories.

The Executive Committee presented a set of rules and regulations prepared by it, under instructions from the full Committee of Thirty, for the government of the two committees. They were adopted by vote. Their most important provisions are: The meetings of the Committee of Thirty are to be held on the first and third Thursday of each month, in the present meeting place, at 4 o'clock p.m.; questions relating to the policy of the management of the fiesta are to be settled by the Committee of Thirty, and details will be attended to by the Executive Committee; the secretary will keep a list of members who attend the meetings, and every member who misses two meetings without sufficient excuse, or who fails to make his excuse at the next meeting after being notified of his liability to suspension, will be dropped from the list of membership.

The Executive Committee submitted plans for collecting money to carry on the fiesta, which were approved by the committee. It is intended to solicit subscriptions from every responsible resident of the city and give every one an opportunity to pay in proportion to his financial ability. Money will be collected by letter and through authorized collectors and the Executive Committee expects to know by January how much of a fiesta Los Angeles can have.

A committee will be named today and is expected to decide upon some arrangements which will make every detail of the fiesta part of the fiesta, and is expected to decide upon some arrangements which will make every detail of the fiesta part of the fiesta, and is expected to decide upon some arrangements which will make every detail of the fiesta part of the fiesta.

A motion was passed fixing the date of the fiesta's opening at April 22 and providing that it shall continue four days and conclude on the evening of the 25th.

The Picture and Daily three mos. for..... 3.35 3.05
The Picture and the Weekly one year for... 2.10 2.10

Call at The Times counting-room and see the picture, or address

FOR ART LOVERS AND MEN AND WOMEN OF CULTURE.

Moran's Magnificent Masterpiece.

The attention of connoisseurs and critics in the world of art, and of all people of culture and refinement, is especially called to the fact that the lithographic reproduction of this celebrated painting was made under the special personal direction of the artist Moran himself. Every one of the twenty-one component colors used in the printing was first approved by the artist before being put upon the lithographic stone.

The Grand Canyon of the Colorado, that wonderland of the world, pictured by an artist whose conception was striking, resistless, grand. Thomas Moran's painting, "THE GRAND CANYON OF THE COLORADO," was the artistic triumph and sensation of the World's Columbian Exposition at Chicago. The faithfulness of the artist in picturing the awful grandeur of the gorge; the delightful delicacy with which he has touched the rolling clouds of mist; the masterly manner in which he has handled Nature's coloring; that melodrama of flame and gold, and rose and wine and azure, is altogether superb.

It is only high genius that has made possible the reproduction of such a splendid work of art, without the loss of a single sun glint; with all the heights and depths of shade luminously portrayed—a reproduction so real that the master whose hand guided the brush-strokes on the original canvas says of it, in effect: "As perfect as perfect can be."

It is this great lithographic triumph, this magnificent reproduction of Moran's famous picture, 22 1/2 x 38 1/4 inches in size, that THE TIMES has arranged to supply to subscribers. It is a picture with a theme grand enough and an execution beautiful enough to make it worthy a place on any wall—in any home.

Get the Picture for Your Home.

Get it now, for never again will you have such a chance. This reproduction of Moran's inspiration is worth in cash all we charge for THE TIMES and the picture in combination.

LOCAL NEWS

PASADENA.

THE ELECTRIC RAILWAY COMPANY MAKES A PROPOSITION.

Boycotting Subscribers to the Los Angeles Prosecution Fund—Ten New Cars for the Electric Road—Woman's Missionary Meeting—Election of Officers.

PASADENA, Oct. 3.—(Regular Correspondence.) When Prof. Lowe appeared before the Council on Monday to urge the granting of the franchise of a new line on Los Robles avenue, the Pasadena and Los Angeles electric road presented the following document, which speaks for itself:

LOS ANGELES (CAL.) Sept. 26, 1935. Prof. T. S. C. Lowe, Pasadena, Cal.—Dear Sir: Referring to the interviews had by you in regard to Altadena and Pasadena railway matters, the board of directors of the Pasadena and Los Angeles electric road, which they make you the following proposition, viz:

If our present route via Fair Oaks avenue to the city railroad at Altadena is not satisfactory to you, then we will agree to construct an electric road, using first-class material, and equip the same in a first-class manner, over the franchise you have asked for from the City Council of Pasadena.

We desire in every way to be perfectly fair, and to give all passengers quick transportation by the most direct route from the Southern Pacific and Santa Fe depots in Pasadena to the terminus of your railroad at Altadena via Lake Avenue. Also we desire to have the same as early a date as possible. We are willing to leave it to a committee of three, composed of your attorney, Mr. Metcalfe, your attorney, Mr. Green, and the City Attorney of Pasadena, as to how much fare we should charge, what kind of arrangement we should make with regard to freight, and what length of time would be to right and fair to allow us to have the road in operation.

Mr. Lukens went today to Perris on business, to be absent until Saturday. Ernest F. May left for San Francisco this evening.

Prof. and Mrs. Kramer returned from New York and Eastern points Tuesday morning. Mr. Kramer will resume his dancing classes at his home, 1000 N. Main, Friday and Saturday nights.

Mr. Kramer met with the American Society of Professors of Dancing at Saratoga, N. Y. Many new dances and figures of the season were introduced in the classes this season.

High-class novelties in single dress patterns at Bon Accord.

SANTA MONICA.
Mail Changes with the Time Card—News Notes.

SANTA MONICA, Oct. 3.—(Regular Correspondence.) The Southern Pacific will, on Saturday, put into effect its winter time card, reducing its train service on this branch to the minimum, and with it comes a change or two in the mail schedule. The new time card takes off one train a day each way except on Saturdays.

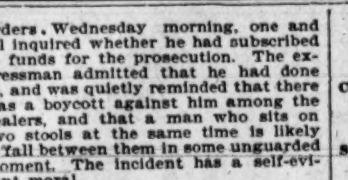

With these changes there come more radical ones pertaining to mails. The first mail out hereafter will be at 8:15 instead of 7:30, and the evening mail at 5:50. This latter feature will not be popular with our people who like to get their mail after supper of evening.

The Maccabee entertainment on Wednesday evening drew a full house, and the play went off smoothly, the amateurs acquitting themselves with credit.

T. P. Bunnell and wife, who spent the past summer in Denver, have arrived home today, and before the Eastern frosts begin.

J. U. Henry succeeded this week in capturing the mate to his condor which he shot in Santa Monica Canyon last May. The second bird he shot on her nest, and is now camping on the trail in hopes of capturing an egg. Both birds measure ten feet from tip to tip. A real condor's egg is quoted on the market at \$1500. That is why J. U. is anxious to satisfy himself that his latest capture is the genuine article. The second condor will be mounted as a companion piece for the first.

When Baby was sick, we gave her Castoria. When she became a child, we gave her Castoria. When she became a woman, we gave her Castoria.

ORANGE COUNTY.

CHAMBER OF COMMERCE ELECTIONS NEW BOARD OF DIRECTORS.

Steps Taken to Advise the County at the Atlanta Exposition—The Fair Association Adds Another Feature to the Week's Program.

SANTA ANA, Oct. 3.—(Regular Correspondence.) The members of the Orange county Chamber of Commerce met in the City Hall Wednesday evening to elect a new set of officers for the ensuing year.

The old board wound up the business of the chamber for the past year, after which officers were elected as follows: John McFadden, president; D. H. Thomas, vice-president; T. J. Nourse, secretary; Commercial Bank, treasurer.

Ray Rafferty, George A. Edgar, W. S. Taylor, E. A. White, E. D. Waffie, E. B. Smith, J. E. Bunker, were chosen as a board of directors.

James Harrison of Tustin, Prof. R. L. Blaby, Thomas McKeever, A. J. Padgugan and S. H. Finley were elected as Finance Committee.

This committee was requested to examine the books and accounts of the organization for the past year and report thereon at the next regular meeting.

The secretary and treasurer were requested to prepare an itemized statement of the business transacted by the chamber during the past year.

Before the old board gave up their seats at the regular meeting, the Orange County Business College, asked the cooperation of the chamber in an effort to get the same proportionate rate over the railroad.

The subject of advertising the city and county was brought up and discussed, after the new board was selected. Several of the directors expressing themselves freely that such advertising ought, by all means, be done.

The essay on "Sewerage" was dispensed with, as the business of the meeting occupied almost the entire evening.

WILD ANIMALS WANTED.
The Orange County Fair Association have decided upon a number of novel features this year that cannot help but increase its popularity with the Orange county public.

A few days ago the directors of the association definitely concluded to have one day of the fair absolutely free to the public.

The gate is concerned, and this was followed by a resolution making the second day of the fair ladies' day, upon which all ladies will be admitted free.

Now they have decided upon another feature that promises to be one of the most exciting and interesting features of the fair.

It is not often that the public generally has an opportunity of seeing the excellent work that is done by a pack of trained dogs.

The trustees of the Santa Ana Free Public Library met Tuesday evening with all members present. After the auditing of bills for the month was passed, the subject of library patronage was discussed and passed, after which the board adjourned.

H. O. FOSDICK DEAD.
H. O. Fosdick ofustin died this (Thursday) morning, after an illness of several weeks.

The official count of the election of directors of the Santa Ana Valley Irrigation Company at Orange last Tuesday shows that C. P. Mallory was elected instead of W. G. McPherson, as previously announced.

ORANGE COUNTY BREVITIES.
Oscar Whiting, Jr., son of Oscar Whiting of Orange, and brother of Mrs. J. C. Gregg, died at his sister's residence in Stanford today (Thursday). Judge Townner is on the sick list, and his place as judge is being temporarily filled by E. E. Keech, Esq.

SAN BERNARDINO COUNTY.

HIGHLAND FAVORS THE NEW WAY OF MARKETING ORANGES.

An Effort Being Made to Secure a Habit-Aiding Deal Down the Mountain—Many Matters of Interest.

SAN BERNARDINO, Oct. 3.—(Regular Correspondence.) A gentleman personally interested in orange-growing at Highland writes that the new tactics of the Southern California orange-growers were ably expounded at the Highland packing-house on Saturday last by T. H. B. Chamblin and Thomas Morehouse.

The plan of taking their products to market in their own name, instead of through the general approval among the growers, who are determined that their yellow balls shall no longer be a medium of gambling for juggling commission men. It would be a sad commentary on this intelligent body of farmers to say that they are not capable of doing their own marketing.

It is not a question of f.o.b. sales or commission, but simply an effort to lessen middlemen's tolls that there may be a little left for the grower. Many who have not heretofore been members of the exchanges are now convinced of the necessity of concerted action, and are joining the new way.

The Highland orange-growers held their annual meeting Monday and elected the following officers and directors for the ensuing year: President, E. C. Winslow; directors, the two above-named and Seth Marshall, W. F. Grow, James Fleming, William L. Rogers, and Robert Bosworth. The election of secretary, treasurer and superintendent was postponed until next meeting.

THEY WANT A RABBI.
The Hebrew population of this city is numerous, influential and wealthy, and the question of a settled rabbi is being seriously considered.

Rabbi Danziger conducted the services for Congregation Emmanuel during the Jewish holidays and left yesterday for San Francisco, where he will remain until that he may return to San Bernardino. Congregation Emmanuel is doing what it can to bring it about, but has not the financial ability to do so.

POMONA BREVITIES.
The orange-growers have had a regular "love feast" today, having been in session throughout the entire day, excepting a short interval for noon and evening meals.

Mr. Chamblin of Riverside held the attention of all present during quite a long address in the forenoon, with the result of warming up the ardor of the growers.

The first meeting of the Woman's Club for the ensuing year will be held Saturday evening at 8 o'clock in the McCombs hall.

Two Spaniards were in the People's Store this afternoon, presumably to make purchases, but they were looking at some clothing the other slipped a pair of pants under his coat.

Miss Emma M. Moore, who has been in San Jose for several years, and who has recently returned to her home in Pomona, left this morning for her former home in San Antonio, Tex.

The iron columns for the front of the McCombs brick block on First and Thomas streets have arrived and are being put in position.

SAN DIEGO COUNTY.
The Hearne Home Was Sold—News Notes.

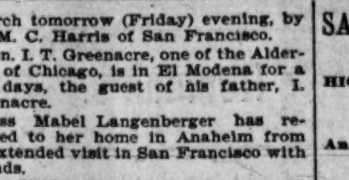

SAN DIEGO, Oct. 3.—(Regular Correspondence.) A dispatch was received here on Wednesday ordering the forced sale of the residence of Dr. J. C. Hearne at First and Laurel streets.

Charles Danforth Cobb, a Fall River capitalist, who bought the property for \$1500, although the actual consideration is believed to be nearer \$7000. Dr. Hearne, who is now in a Missouri jail charged with splitting open the skulls of his wife's first husband with an axe, is to have a hearing next December. It is thought that this sudden sale of this desirable property betokened an immediate need of cash.

George B. Kerper is reported to have closed a contract with William L. Clark of the General Electric Company of New York to install a cable road with a trolley outfit.

The Cargo Muchacho mines have been attached to secure the payment of \$1000 and the tax of \$115, will yield a revenue of \$622.60 in total to run the city for a year.

REDFLANDS.
REDLANDS, Oct. 3.—(Regular Correspondence.) The meeting of the orange-growers, held in Woodman's Hall, Wednesday afternoon, J. S. Edwards was elected chairman, and J. M. Caldwell, secretary. The object of the meeting was to take steps to form an association for the purpose of uniting with the Southern California Exchange. The meeting was not largely attended, but those present, with one exception, expressed themselves as being in favor of uniting with the exchange. A committee to further the end of organization was appointed, which is composed of J. S. Edwards, J. M. Caldwell, and C. E. Plummer.

POMONA.

The Last Day's Session of the Baptist Association.

POMONA, Oct. 3.—(Regular Correspondence.) The day's session of the Baptist Association, which opened here on Tuesday of this week, was an especially interesting nature. The reading was from Romans vi, and Rev. A. J. Frost of San Bernardino presiding.

The morning session was devoted to the reading of the report of the committee on the subject of the proposed merger of the Baptist churches of the city and county.

The subject of advertising the city and county was brought up and discussed, after the new board was selected. Several of the directors expressing themselves freely that such advertising ought, by all means, be done.

The essay on "Sewerage" was dispensed with, as the business of the meeting occupied almost the entire evening.

WILD ANIMALS WANTED.
The Orange County Fair Association have decided upon a number of novel features this year that cannot help but increase its popularity with the Orange county public.

A few days ago the directors of the association definitely concluded to have one day of the fair absolutely free to the public.

The gate is concerned, and this was followed by a resolution making the second day of the fair ladies' day, upon which all ladies will be admitted free.

Now they have decided upon another feature that promises to be one of the most exciting and interesting features of the fair.

The trustees of the Santa Ana Free Public Library met Tuesday evening with all members present. After the auditing of bills for the month was passed, the subject of library patronage was discussed and passed, after which the board adjourned.

H. O. FOSDICK DEAD.
H. O. Fosdick ofustin died this (Thursday) morning, after an illness of several weeks.

The official count of the election of directors of the Santa Ana Valley Irrigation Company at Orange last Tuesday shows that C. P. Mallory was elected instead of W. G. McPherson, as previously announced.

ORANGE COUNTY BREVITIES.
Oscar Whiting, Jr., son of Oscar Whiting of Orange, and brother of Mrs. J. C. Gregg, died at his sister's residence in Stanford today (Thursday). Judge Townner is on the sick list, and his place as judge is being temporarily filled by E. E. Keech, Esq.

CHAMBER OF COMMERCE ELECTIONS NEW BOARD OF DIRECTORS.
Steps Taken to Advise the County at the Atlanta Exposition—The Fair Association Adds Another Feature to the Week's Program.

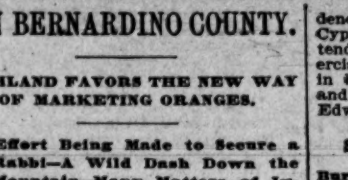

SANTA ANA, Oct. 3.—(Regular Correspondence.) The members of the Orange county Chamber of Commerce met in the City Hall Wednesday evening to elect a new set of officers for the ensuing year.

The old board wound up the business of the chamber for the past year, after which officers were elected as follows: John McFadden, president; D. H. Thomas, vice-president; T. J. Nourse, secretary; Commercial Bank, treasurer.

Ray Rafferty, George A. Edgar, W. S. Taylor, E. A. White, E. D. Waffie, E. B. Smith, J. E. Bunker, were chosen as a board of directors.

James Harrison of Tustin, Prof. R. L. Blaby, Thomas McKeever, A. J. Padgugan and S. H. Finley were elected as Finance Committee.

This committee was requested to examine the books and accounts of the organization for the past year and report thereon at the next regular meeting.

SANTA BARBARA COUNTY.

Burglars in a Tailor Shop—The Council Meeting.

SANTA BARBARA, Oct. 3.—(Regular Correspondence.) The store of Frank Frediani, a tailor, was entered by burglars last night. They secured no valuables, and from the appearance of the interior of the shop, this morning it is evident that they were frightened away before their purpose was accomplished.

The money-drawer had been broken open, but the contents were not removed at the close of the day's business, and the thieves got nothing for their trouble.

CITY BUSINESS.
The Council met in regular session this afternoon. The only business of importance was the passage of the proclamation calling for the special election to vote on the street-paving bond question, which it had already been decided to hold on the 28th of this month.

The Council is evidently determined that no more small sheds shall be placed along the main business streets. Today they denied the request of Perry, who asked permission to remove a small building from one part of State street to another.

The regular quarterly reports of the city officers were approved. There has been considerable complaint during the past year on account of the withdrawal of the sprinkling carts from the side streets. Five of the six carts are now out of the service.

SANTA BARBARA BREVITIES.
At the home of Mr. and Mrs. Alexander Selover this afternoon, Thomas M. George and Miss Dora M. Selover were united in marriage.

Grant officiating. Mr. George has lived in Santa Barbara for several years, and is now in the employ of the Santa Barbara Electric Light and Power Company.

The report of the County Treasurer for September showed the county funds to be in this condition: Balance on hand, September 1, \$55,225; receipts, \$4830.00; disbursements, \$19,345; balance on hand October 1, \$40,710.

The steamer Santa Rosa, arriving at 3:30 o'clock this afternoon from the North, had fifteen passengers for this city.

Supervisor A. B. Williams is in San Luis Obispo for a few days. Arrivals at the Arlington include: Hugo Gonzalez, L. La Mangus, Los Angeles; H. E. Swift, Santa Barbara; F. A. Bradley, Cincinnati.

RIVERSIDE COUNTY.
The La Mesa Fruit Company Has Organized.

RIVERSIDE, Oct. 3.—(Regular Correspondence.) About fifty lemon and orange-growers of the East Side met at the court room this afternoon to effect arrangements looking toward the organization and incorporation of an association having for its object the picking and marketing of lemons and oranges. It was decided to incorporate as soon as one hundred growers, lemons and oranges had been pledged, and signatures were then asked for.

Several names for the new association were suggested, but the one presented by Mr. Abbott, La Mesa Fruit Company, was selected. On motion of Prof. P. L. Lord a committee on bylaws consisting of P. L. Lord, C. F. Marcy and J. C. Thompson, was appointed.

It is thought the association will have a membership representing fully two hundred growers. The articles of incorporation were presented and adopted.

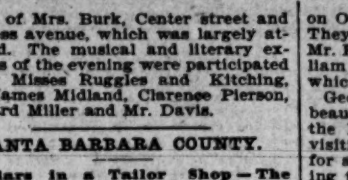

FUNERAL OF WILLIAM R. HIGGINS.
The funeral of William R. Higgins, who was accidentally killed by falling into a well at West Riverside last Tuesday afternoon, will take place today at 2 o'clock.

FAVORING THE EXCHANGE.
A mass-meeting of orange-growers was held here today to discuss the outlook for the coming season, and to hear the reports of T. Morehouse and P. E. Platt, Eastern representatives of the Southern California Exchange.

It was decided to continue the exchange, and the local exchange, submitted a report of the work of the exchange for the past season, which showed good work, considering all the unfavorable conditions known to exist during the season.

REDFLANDS.
REDLANDS, Oct. 3.—(Regular Correspondence.) The meeting of the orange-growers, held in Woodman's Hall, Wednesday afternoon, J. S. Edwards was elected chairman, and J. M. Caldwell, secretary. The object of the meeting was to take steps to form an association for the purpose of uniting with the Southern California Exchange. The meeting was not largely attended, but those present, with one exception, expressed themselves as being in favor of uniting with the exchange. A committee to further the end of organization was appointed, which is composed of J. S. Edwards, J. M. Caldwell, and C. E. Plummer.

At a meeting of the Bicycle Club it was decided to hold a race on the track, should be bought up as soon as possible by the club, so as to give it full control.

Sick-headache, Biliousness, Constipation, Dyspepsia.

Many millions of people have tried Simmons Liver Regulator for all the ailments enumerated above, and have declared it to be the "King of Liver Remedies."

The Regulator is worth its weight in gold. I never used medicine before that acted so quickly and so surely. J. J. Veaser, Washington.

Dr. J. L. Stephenson, Owensboro, Ky., in the treatment of lung and bronchial diseases, has found that the Regulator is often implicated to such an extent that a specific remedy becomes necessary in effecting a cure of the lungs. Recently prescribed Simmons Liver Regulator with entire satisfaction.

Highest of all in Leavening Power.—Latest U.S. Gov't Report

Baking Powder

ABSOLUTELY PURE

brother, Lyman C. Hitchcock, and family of No. 201 North Sichel street. Miss Hitchcock is a pupil of William L. Tomlins of Chicago, who lectured here recently.

BURGULARS ARRAIGNED.
Wanted to Waive Examination—No Use for Lawyers.

The quartette of burglars bagged by the Los Angeles and San Francisco detectives, Edward Lang, J. H. Riley alias Davis, Frank Moss and Harry Williams, were arraigned before Justice Morrison yesterday. Riley, acting as spokesman for the gang, said: "We waive all preliminary examinations and desire an immediate trial. We want to get through with this business as soon as possible."

The court explained that in this State, the law made a preliminary examination indispensable. He informed the prisoners of their rights and set their examination for today.

The prisoners were unaccompanied by counsel, and said they did not wish any attorney. This put a damper on the hopes of a number of legal lights who were hovering about, and who have been making strenuous efforts to get an interview with the prisoners and be retained to defend them. But the burglars will have none of them. Present indications are that they will all plead guilty and throw themselves on the mercy of the court.

Detective Gibson of San Francisco who brought Lang down is still here and will remain till after the examination today.

Police Court Notes.

In the Police Court yesterday Charles Schmidt was fined \$1 for driving faster than a walk at the intersection of First and Main streets.

Ah Fook, a festive heathen who fired bombs in Chinatown Wednesday night, contrary to police regulations, was fined \$1. It was a Chinese holiday and there was much firing of bombs till Ah Fook's arrest put a stop to it.

Jose M. Guerrero was fined \$5 for disturbing the peace of Mrs. Santa Cruz in Sonoratown.

Tom Wileath was fined \$15 for disturbing the peace of a woman on Wilmington street. Wilson used bad language and choked the woman.

Walter Milne was arraigned on two charges of forgery, and held in \$1500 bail in each case for examination today.

A Double Misfortune.

Misfortunes never come singly, not even to poor Italianians who run lunch counters and sell whiskey without license. Battiste Dorosini, who conducts a humble restaurant on Alameda street, has found it even sadder yesterday night he was arrested by Police Officer Robbins for selling beer without a city license. He was arraigned in the Police Court Wednesday afternoon, and furnished a \$100 bond for his appearance in court today. The link had hardly got dry on his bond when Deputy Constable Muegenit swooped down on the unsuspecting Battiste with a warrant and arrested him for selling liquors without a license from the county. Dorosini furnished a second bond yesterday for trial on this charge, October 11.

The Y. P. S. C. E.

The Executive Committee of the district Y. P. S. C. E. of Southern California convened at the Y.M.C.A. parlors Thursday afternoon at 2 o'clock. There were present, C. B. Morris, district president; Miss Minnie Ross, secretary; Miss Maud Tate, Frank Schureman, Miss M. P. Jones, George E. Dye, Dr. W. W. Coffin, Herbert G. Wylie and Dr. J. T. Price.

Transacted preparatory to the convention to be held at Pomona, November 29, 30, and December 1. Among the prominent speakers will be Rev. William Rader of San Francisco, who has already consented to come. Special notice was given that the Los Angeles City Union would meet at the Y.M.C.A. tonight.

Pacific College of Obstetrics and Maternity Institute.

Incorporated under the laws of the State of California, July 10, 1895, was organized for the purpose of affording practical and scientific instruction in the art of midwifery, and the faculty will endeavor to supply such a course to all those who may wish to avail themselves of its benefits. The only institution of the kind in the West with a maternity institute for a proper and thorough education of midwives. Located permanently at No. 1115 West Seventh street.

TOP buggies \$75 at Hawley, King & Co.'s.

Two Great Classes.

There are only two classes of cough syrups—Tip Top and others. If you want the best take Tip Top and no other. If you want the safest take Tip Top and no other. If you want the most pleasant take Tip Top and no other. If you want the cheapest take Tip Top and no other. If you want results take Tip Top and no other. Price 50c and no other. All druggists sell it—take no other.

PRAYING FOR HIM.

Chief Glass receives a Gratifying Billet-doux.

Chief of Police Glass receives many letters, some praising and others condemning his acts. He is used to receiving threatening letters from cranks, as it is that class who usually tell him frankly what they think of his administration, or write to tell him what he ought to do in order to prevent crime in the city. As a rule the Chief pays little attention to these effusions, but in his mail yesterday was a daintily written note, that made the big Chief feel good. The writer, who is a woman, a highly respected one at that, after telling how proud she felt of him after having read his declaration in regard to the chain-gang before the Police Commission the other day, said: "I hope God may richly bless you, and God bless you is my constant prayer."

The Chief does not believe in Oregon boots or balls and chains for prisoners, and he is glad to have the prayers of a good woman in support of his position.
